Objective

To utilize my technical skills and provide a professional service to customers by applying and honing my knowledge and working in a challenging and motivating working environment.

Experience

- As a fresher with a passion for web development, I have honed my skills in HTML, CSS, JavaScript, Bootstrap, Tailwind, and Figma to create stunning websites. I have hands-on experience in using these technologies to build projects that showcase my skills and creativity. I have used Figma to create detailed UI designs, wireframes, and prototypes that allowed me to visualize my website's structure and layout. With HTML, CSS, and JavaScript, I brought these designs to life, creating fully-functional websites that are both aesthetically pleasing and user-friendly. As a fresher, I am eager to learn and grow, and I am confident that my skills and experience make me a strong candidate for any web development role.

Education

- **Government Engineering College Ramgarh, Jharkhand** 2025
Btech in Computer Science Engineering
- **Government Polytechnic Kharsawan** 2022
DIPLOMA IN COMPUTER ENGINEERING
86.75
